Davey Owens' Boston Butt Fundraiser was one of the easiest and most profitable fundraisers that I have ever been involved with. His turnkey philosophy made our job simple: just sell, and with a quality product like his delicious, hickory smoked Boston Butts it wasn't hard.

Davey worked with us to provide personalized flyers, tickets, and organizational sheets that were professional, helpful, and efficient. He also produced a personalized database of our clients for future fundraisers. Davey went out of his way to provide a number of samples to prospective purchase groups. On the day of the pickup, we had an assembly like distribution process. Davey provides a self-packaged product with all storage and reheating information on it. The process was clean and easy. I was astounded at how simple the whole fundraiser was.

We sold 180 Boston Butts, netted \$2,900+, and did relatively little work. This is a big credit to Davey Owens. He was a pleasure to work with and we will 100% without a doubt work with him again!
